

**neglecting a dog
is the same
as abusing one**

If you're not prepared to take care of a dog, don't get one.

You must provide food, water, shelter and vet care. Spay or neuter your dog immediately. And walk him on a leash or keep him in a fenced area he can't get out of. If you can't do these things, you could end up fined or even in jail. Shelters already have too many dogs. They don't want yours.
